

## Graduate Diploma in Health Administration

### Examples of possible Study Plans for part-time students commencing in Semester 1.

All internal and external students are expected to attend the full-day face-to-face intensive workshops.

Where difficulties in attending all sessions arise due to travelling distance or other circumstances, please contact the Course Administrative Officer to discuss.

Students wishing to avoid undertaking two one-week intensives in the one semester, may swap the topics HACM9102 Financial Management and Economics in Health Care and HACM9202 Safety and Quality in Health Care in the study plans.

To choose electives, please see list of HACM topics (including electives) at: <http://flinders.edu.au/medicine/sites/health-care-management/teaching-program/topics.cfm>

Ideas for relevant postgraduate electives offered by other areas of the University can be found at:

<http://flinders.edu.au/medicine/sites/health-care-management/teaching-program/elective-topics.cfm>

Permission of the Health Care Management Course Coordinator must be sought prior to enrolling in any of these.

With approval of the Course Coordinator, you may also study relevant post-graduate topics at other Universities by cross-institutional enrolment.

Students intending to progress to the Master of Health Administration, and who wish to undertake a more traditional research project (rather than an action learning project) as the Master's management project, must discuss their study plan with the Course Coordinator as preparatory research methods topics will need to be chosen as electives e.g. EDUC9761 Approaches to Research (4.5 units) or PHCA9503 Research Methods for Social Epidemiology (9 units). This also applies to students intending to progress to the Master of Science (Health Administration).

### Example 1

Calendar Year	Sem	Topics (4.5 units unless otherwise indicated)	Mode
1	1	HACM9100 Leadership in Health and Aged Care	Mixed: Two (2) full-day intensives (one at start and one at end of sem), one (1) half-day workshop mid-sem (optional), online work
		HACM9102 Financial Management and Economics in Health Care OR HACM9103 Financial Management in Aged Care (when offered)	Mixed: Three (3) full-day intensives, one (1) half-day workshop, online work
	2	HACM9101 Leading Organisations in Health and Aged Care	Mixed: Two (2) full-day intensives (one at start and one at end of sem), one (1) half-day workshop mid-sem (optional), online work
		HACM9200 Health and Aged Care Systems and Policy	Mixed: Two (2) full-day intensives (one at start and one at end of sem), one (1) half-day workshop mid-sem, online work
2	1	HACM9201 Health Law and Ethics	One-week intensive
		HACM9202 Safety and Quality in Health Care	One-week intensive
	2	HACM9207 Health and Aged Care Operations Management	Mixed: Two (2) full-day intensive workshops (one at start and one at end of sem)
		Elective
